According to Circular 31, the Bank is not required to make a general provision for due from and loans to other credit institutions.

3. Loans to customers

Loans to customers are disclosed and presented at the principal amounts outstanding at the end of the period.

Provision for credit losses of loans to customers is presented consolidatedly as one (1) line in the consolidated statement of financial position.

Short-term loans have term of less than one year from the disbursement date. Medium-term loans have term of one to five years from the disbursement date. Long-term loans are loans with term of over 5 years from the disbursement date.

Loan classification and provision for credit losses are made according to Decree 86 and Circular 31 as described in *Note 4*.

4. Loan classification and provision for credit losses applied to due from and loans to other credit institutions, direct and entrusted investments in unlisted corporate bonds, loans to customers, entrustments for credit granting and other credit risk bearing assets

4.1 *Loan classification and provision for credit losses*

The classification of due from and loans to other credit institutions, direct and entrusted investments in unlisted corporate bond, and loans to customers and entrustments for credit granting and other credit risk bearing assets (collectively called "debts") is recognized on the basis of quantitative method as prescribed in Article 10 of Circular 31. Accordingly, loans to customers are classified according to the following levels of risk: Current, Special mention, Sub-standard, Doubtful and Loss based on status out of date. Debts classified as Sub-standard, Doubtful and Loss are considered bad debt.

4.4 *Additional specific provision for loans eligible for debt restructuring as prescribed in Circular 01, Circular 02, Circular 03, Circular 14.*

The Bank makes the specific provision to be made for all outstanding loans of customers which are restructured, exempted interest and reduced interest in accordance with Circular 02 and Circular 03 according to the following formula: $C = A - B$

In which:

C: Additional provision;

A: Specific provision to be made for all outstanding loan balance of customers according to the results of debt classification according to Circular 31 (*Note 4.1*);

B: Total specific provision to be made for the outstanding balance of debts retained debt classification according to regulations (*Note 4.2*) and specific provision to be made for remaining balance of the customers as debt classification according to Circular 31 (*Note 4.1*).

The additional provision C shall be made additional provision by The Bank when preparing financial statements, ensuring the provisioning at as follows:

With Circular 01, Circular 03 and Circular 14

+ By 31/12/2021: At least 30% of the additional provision;

+ By 31/12/2022: At least 60% of the additional provision;

+ By 31/12/2023: 100% of the additional provision.

With Circular 02

+ By 31/12/2023: At least 50% of the additional provision;

+ By 31/12/2024: 100% of the additional provision;

Write-off bad debts

Provisions are recognized as an expense in the consolidated income statement and are used to deal with bad debts. According to Circular 31, the Bank establishes a risk settlement committee to deal with bad debts if they are classified in group 5, or if the borrower is an organization that is dissolved or bankruptcy or individual who is dead or missing.

5. **Loans sold to Vietnam Asset Management Company ("VAMC")**

The Bank sell loans to VAMC at the carrying amount in accordance with Decree No, 53/2013/ND-CP effective from 9 July 2013 on "Establishment, structure and operations of Vietnam Asset Management Company", Circular No. 19/2013/TT-NHNN "Regulations on purchasing, selling and writing-off of bad debts of Vietnam Asset Management Company", circulars amend and supplement Circular 19/2013/TT-NHNN and Official Letter No. 8499/NHNN-TCKT on "Accounting guidance on selling and purchasing of bad debts between VAMC and credit institutions". Accordingly, selling price equals to the outstanding loan balance minus (-) unused balance of specific provision. The bank then receives the special bonds issued by VAMC.

Upon the sale of loans to VAMC, the Bank writes off loan balances and corresponding specific provisions and recognizes special bonds issued by VAMC at par value. When receiving loans previously sold to VAMC, the Bank uses annual specific provisions for special bonds to write off bad debts and recognizes the difference between provision for credit loss and the remaining outstanding loan balance/bond value in "*Other income*" in the consolidated income statement.

6. Held-for-trading securities

Classification and recognition

Held-for-trading securities include debt securities purchased for trading purposes. Held-for-trading securities are initially recognized at cost on transaction date.

Measurement

Periodically, held-for-trading securities will be considered for diminution in value.

Provision for diminution in value of held-for-trading securities is made specifically for loss investment. The Bank make provision for held-for-trading securities if there is substantial evidence indicating a decline in the value of these investment at consolidated statement. Provision for diminution is recognized to the consolidated income statement at "Net gain from trading of held-for-trading securities".

Provision for held-for-trading securities which is mentioned above is reversed when the recoverable amount of held-for-trading securities increases after the provision is made as a result of an objective event. Provision is reversed up to the gross value of these securities before the provision is made.

Gains or losses from trading securities are recognized in the separate income statement.

Interest and dividends derived from held-for-trading securities are recognized on cash basis in the separate income statement.

De-recognition

Held-for-trading securities are de-recognized when the rights to receive cash flows from these securities are terminated or the Bank transfers substantially all the risks and rewards of ownership of these securities.

7. Available-for-sale securities

7.1 *Classification and recognition*

Available-for-sale securities include debt and equity securities that are acquired by the Bank for the investment and available-for-sale purposes, not regularly traded but can be sold when there is a benefit. For equity securities, the Bank are also neither the founding shareholder nor the strategic partner and do not have the ability to make certain influence in establishing and making the financial and operating policies of the investees through a written agreement on assignment of its personnel to the Board of Directors/Management.

Available-for-sale equity securities are initially recognized at cost at the purchase date and continuously presented at cost in subsequent periods.

Available-for-sale debt securities are recognized at par value at the purchasing date. Accrued interest before the purchasing date (for debt securities with interest payment in arrears) and deferred interest (for debt securities with interest payment in advance) is recognized in a consolidated account. Discount/premium, which is the difference between the cost and the amount being the par value plus (+) accrued interest (if any) or minus (-) deferred interest (if any) is also recognized in a separate account.

In subsequent periods, these securities are continuously recorded at par value, and the discount/premium (if any) is amortized to the consolidated income statement on a straight-line basis over the remaining term of securities. Interest received in arrears is recorded as follows: Cumulative interest incurred before the purchasing date is recorded as a decrease in the accrued interest; cumulative interest incurred after the purchasing date is recognized as income of the Bank based on the accumulated method. Interest received in advance is amortized into the securities investment interest income on a straight-line basis over the term of securities investment.

7.2 *Measurement*

Periodically, available-for-sale securities will be considered for diminution in value.

Provision for diminution in value of available-for-sale securities is made when book value of the securities is higher than its market value. Provision for diminution in value is recorded to "Net gain/loss from investment securities" in the consolidated income statement.

For corporate bonds that have not yet been listed on the securities market or have not been registered for trading on unlisted public companies, the Bank shall made provisions for those bonds in accordance with Circular 31 as presented in *Note 4.1*.

8. Held-to-maturity investment securities

Held-to-maturity investment securities include special bonds issued by Vietnam Asset Management Company ("VAMC") and other investment securities held to maturity.

Special bonds issued by VAMC

Special bonds issued by VAMC are fixed-term valuable papers used to purchase bad debts of the Bank. These special bonds are initially recognized at face value at the date of transaction and subsequently carried at the face value during the holding period. Face value of the bonds equals to the outstanding balance of the debts sold less their unused specific allowance.

During the holding period, the Bank periodically calculate and make allowance in accordance with Circular No. 14/2015/TT-NHNN dated 28 August 2015, Circular No. 08/2016/TT-NHNN dated 16 June 2016 amending and supplementing some articles of Circular No. 19/2013/TT-NHNN which stimulates the purchase, sale and write-off bad debts of VAMC.

As required by circulars, each year within five consecutive working days prior to the maturity date of special bonds, the Bank is obliged to fully make specific provision for each special bond using the below formula:

$$X_{(m)} = \frac{Y}{n} \times m - (Z_m + X_{m-1})$$

In which:

- $X_{(m)}$ is minimum provision for special bonds in the m^{th} year;
- X_{m-1} is accumulated specific provision for special bonds in the $m-1^{\text{th}}$ year;
- Y is face value of special bonds;
- n is term of special bonds (years);
- m is number of years from the bond issuance date to the provision date;
- Z_m is accumulated bad debt recoveries at the provision date (m^{th} year). Credit institution co-operate with VAMC to confirm such debt recoveries.

If $(Z_m + X_{m-1}) \geq (Y/n \times m)$, the specific provision ($X_{(m)}$) will be (0).

Specific provision for each special bond is recognized in the consolidated income statement in "Provision expense for credit loss". General provision is not required for the special bonds.

On settlement date of special bonds, interest occurred from debts collection shall be recognized into "Interest and similar income".

Other held-to-maturity investment securities

Held-to-maturity investment securities are debt securities purchased by the Bank for the investment purpose of earning interest and the Bank has the capability and intention to hold these investments until maturity. Held-to-maturity securities have the determined value and maturity date. In case the securities are sold before the maturity date, these securities will be reclassified to held-for-trading securities or available-for-sale securities.

Debt securities are recognized and measured similarly as available-for-sale securities at *Note 6*.

9. Other long-term investments

Other long-term investments

Other long-term investments represent investments in other entities in which the Bank holds less than or equal to 11% of voting rights. These investments are initially recorded at cost at the investment date.

Provision for diminution in the value of other long-term investment is made when there is substantial evidence indicating a decline in the value of these investments at the consolidated statement of financial position date.

For securities which are not listed but are registered for trading on unlisted public company market (UPCoM), provision for diminution in value is made when their average referenced price within the last 30 trading days prior to the time of preparing the consolidated financial statements announced by the Stock Exchange is lower than the carrying value of the securities at the end of accounting year.

In other cases, provision for diminution in the value of long-term investment is made if the invested economic organizations experience losses. Provision for diminution is calculated according to the following formula:

$$\begin{array}{r}
 \text{Level of} \\
 \text{provision for} \\
 \text{investment}
 \end{array}
 =
 \begin{array}{r}
 \text{Actual rate of} \\

 \text{capital of} \\
 \text{business} \\
 \text{organization at} \\
 \text{the time of} \\
 \text{making the} \\
 \text{provision}
 \end{array}$$

Provision is reversed when the recoverable amount of the investment increases after the provision is made. Provision is reversed up to the gross value of the investment before the provision is made.

10. Fixed assets

Fixed assets are stated at cost less accumulated depreciation or accumulated amortization.

The cost of a fixed asset comprises any directly attributable costs of bringing the fixed asset to working condition for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the consolidated income statement as incurred.

When fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the consolidated income statement.

11. Lease

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at inception date and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset.

A lease is classified as a finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership of the asset to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are capitalized in the consolidated statement of financial position at the inception of the lease at the fair value of the leased assets or, if lower, at the net present value of the minimum lease payments. The principal amount included in future lease payments under finance leases are recorded as a liability. The interest amounts included in lease payments are charged to the consolidated income statement over the lease

term to achieve a constant rate on interest on the remaining balance of the finance lease liability.

Capitalized financial leased assets are depreciated using straight-line basis over the shorter of the estimated useful lives of the asset and the lease term, if there is no reasonable certainty that the lessee will obtain ownership by the end of the lease term.

Rentals under operating leases are charged to the consolidated income statement in "Other operating expenses" on a straight-line basis over the lease term.

Income from operating leases is recognized in "Other operating income" in the consolidated statement of income on a straight-line basis over the lease term.

12. Depreciation and amortization

Depreciation and amortization of tangible fixed assets and intangible fixed assets are calculated on a straight-line basis over the estimated useful life of the assets as follows:

Buildings and structures	5 - 30 years
Machinery and equipment	3 - 8 years
Vehicles	3 - 8 years
Office equipment	3 - 8 years
Other tangible fixed assets	3 - 10 years
Software	3 - 8 years
Land use right	30 - 50 years

Infinite land use rights granted by the Government are not amortized. Definite term land use rights are amortized over the term of use.

13. Other receivables

13.1 Receivables classified as credit risk assets

Receivables classified as credit-risk assets are recognized at cost. Doubtful receivables are classified and provided for allowance by the Bank in accordance with the regulations on recognition and use of provision presented in Note 4.1.

13.2 Other receivables

Receivables other than receivables from credit activities in the Bank's operations are recognized at cost and subsequently carried at cost during the holding period.

Provision for receivables is determined based on the overdue status of debts or expected loss of current debts in case the debts are not due for payment yet but the corporate debtors have fallen into bankruptcy or are in the process of dissolution, or of individual debtors are missing, escaped, prosecuted, on trial or deceased. Provision expense incurred is recorded in "Other operating expenses" of the consolidated income statement during the period.

Provision for overdue debts is made in accordance with the guidance of Circular No. 48/2019/TT-BTC as amended by Circular No.24/2022/TT-BTC as follows:

<u>Overdue period</u>	<u>Provision rate</u>
From six months up to under one year	30%
From one year up to under two years	50%
From two years up to under three years	70%
From three years and above	100%

Currency forward contracts

The currency forward contracts are commitments to settle in cash on a pre-determined future date based on the difference between pre-determined exchange rates, calculated on the notional amount. The currency forward contracts are recognized at nominal value at the transaction date and are revalued for the reporting purpose at the exchange rate at the reporting date. Gains or losses realized or unrealized are recognized in the "Exchange rate revaluation" under "Owners' equity" and will be transferred to the consolidated income statement at the end of the financial period. The premium or discount derived from the difference between spot rate and forward rate are recorded at contract date as assets if positive or liabilities if negative in consolidated statement of financial position. The difference is amortized to the consolidated income statement on straight-line basis over the forward contract period.

Currency swap contracts

The swap contracts are commitments to settle in cash on a pre-determined future date based on the difference between pre-determined exchange rates calculated on the notional principal amount. The premium or discount resulting from the difference between the spot rate at the effective date of the contract and the forward rate will be recognized immediately at the effective date of the contract as an asset if positive or a liability if the negative on the consolidated statement of financial position. The difference will be amortized on a straight-line basis over the life of the swap contract to the consolidated income statement.

15. Capital

15.1 Ordinary shares

Ordinary shares are classified as equity.

15.2 Share premium

16. Recognition of income and expense

Interest income and interest expenses

Interest income and interest expenses are recognized in the consolidated income statement on accrual basis for debts classified as current debts that do not have to make specific provisions. The recognition of accrued interest income is suspended when such debt is classified in groups 2 to 5 according Circular 31 as presented at *Note 4.1* or debts retained classification as group 1 due to the application of Circular 01, Circular 03 and Circular 14 at *Note 4.2* is not recognized in the consolidated income statement. Suspended interest income is reversed and monitored off-statement of financial position and recognized in the consolidated income statement upon actual receipt.

Fees and commissions income

Fees and commissions are recognized when services are rendered.

Income from investments

Income from investments is recognized on the difference between the selling price and average cost of the securities sold.

Cash dividends from investment are recognized in the consolidated income statement when the Bank has right to receive the payment are established. For stock dividends and bonus shares, the number of shares is just updated, and no dividend income is recognized in the consolidated income statement.

Other income

Other income is recognized on cash basis.

According to Circular 16/2018/TT-BTC dated 7 February 2018 of the Ministry of Finance guiding for financial regulation applied to credit institutions and branches of foreign banks, with regard to accounts receivable which have been accounted for as income but they are considered uncollectible or they are not obtained when they are due, the Banks recognize a reduction in revenue if it is in the same accounting period or recognize them as expenses if it is not in the same accounting period and monitoring off-statement of financial position to urge the collection. When accounts receivable is collected, the Bank shall account them for as income in the consolidated income statement.

17. Corporate income tax

Current corporate income tax

Current income tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from (or paid to) the taxation authorities. The tax rates and tax laws used to compute the amount are those that are effective as at the consolidated statement of financial position date.

Current income tax is charged or credited to the consolidated income statement, except when it relates to items recognized directly to equity, in which case the current income tax is also accounted in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Bank to set off current tax assets against current tax liabilities and when the Bank intends to settle its current tax assets and liabilities on a net basis.

The tax returns of the Bank are subject to examination by the tax authorities. Due to the ambiguity associated with the applicability of tax laws and regulations, amounts reported in the consolidated financial statements could be changed at a later date upon final determination by the tax authorities.

18. Foreign currency transactions

In accordance with the accounting system of the Bank, all transactions are recorded in original currencies. Monetary assets and liabilities denominated in foreign currencies are converted into VND using exchange rates ruling at the consolidated statement of financial. Income and expenses arising in foreign currencies during the year are converted into VND at rates ruling at the transaction dates. Foreign exchange differences arising from the translation of monetary assets and liabilities from foreign currency to VND in the year are recognized and followed in the "Exchange rate revaluation" under "Owners' Equity" section and will be transferred to the consolidated income statement at the end of the financial year.

19. Employee benefits

19.1 Post-employment benefits

Post-employment benefits are paid to retired employees of the Bank by the Social Insurance Agency, which belongs to the Ministry of Labor, Invalids and Social Affairs. The Bank are required to contribute to these post-employment benefits by paying social insurance premium to the Social Insurance Agency at the rate of 17.50% of an employee's basic salary on a monthly basis, allowances and other additional payments. Besides, the Bank have no further obligation of post-employee benefits.

VIII. FINANCIAL RISK MANAGEMENT

21. Financial risk management

Risk is inherent in the Bank's activities and is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Bank's continuing profitability and each individual within the Bank is accountable for the risk prevention within his or her responsibilities. The Bank are exposed to credit risk, liquidity risk and market risk (then being subdivided into trading and non-trading risks). The Bank is also subject to various operational risks.

The independent risk control process does not include business risks such as changes in the environment, technology and industry. The Bank's policy is to monitor those business risks through the Bank's strategic planning process.

(i) Risk management structure

The Board of Directors is ultimately responsible for identifying and controlling risks. However, each consolidated member shall be responsible for managing and monitoring risks.

(ii) Board of Directors

The Board of Directors is responsible for monitoring the overall risk management process within the Bank.

(iii) Risk Management Committee

Risk Management Committee advises the Board of Directors in the promulgation of procedures and policies under their jurisdiction relating to risk management in the Bank's activities.

Risk Management Committee analyses and provides warnings on the potential risks that may affect the Bank's operation and preventive measures in the short term as well as long term.

Risk Management Committee reviews and evaluates the appropriateness and effectiveness of the risk management of procedures and policies of the Bank to make recommendations to the Board of Directors on the improvement of procedures, policies and operational strategies.

(iv) Board of Supervision

The Board of Supervision has the responsibility to control the overall risk management process within the Bank.

(v) Internal Audit

According to the annual internal audit plan, business processes throughout the Bank is audited annually by the internal audit function, which examines both the adequacy of the procedures and compliance with the Bank's procedures. Internal Audit discusses the results of all assessments with Board of Directors and reports its findings and recommendations to the Board of Supervision.

(vi) Risk measurement and reporting systems

The Bank's risks are measured using a method which reflects both the expected loss likely to arise in normal circumstances and unexpected losses, which are an estimate of the ultimate actual loss based on statistical models.

Monitoring and controlling of risks is primarily performed based on limits established by the Bank in compliance with the State Bank of Vietnam's regulations. These limits reflect the business strategy and market environment of the Bank as well as the level of risk that the Bank is willing to accept

Information compiled from all business activities is examined and processed in order to analyze, control and early identify risks. This information is presented and explained to the Board of Management, Board of Directors, and the department heads. The report includes aggregate credit exposure, credit metric forecasts, limit exceptions, liquidity ratios and risk profile changes. The Board of Directors assesses the appropriateness of the allowance for credit losses on a quarterly basis. The Board of Directors receives a comprehensive risk report quarterly which is designed to provide all the necessary information to assess and conclude on the risks of the Bank.

For all levels throughout the Bank, specifically tailored risk reports are prepared and distributed in order to ensure that all business departments have access to extensive, necessary and up-to-date information.

(vii) Risk reduction

The Bank has actively used collateral to mitigate credit risk.

(viii) Excessive risk concentration

Concentrations arise when a number of counterparties of the Bank is engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would affect the group of customers' payment obligations or payment receipt rights when due under changes in economic, political or other conditions.

These above concentrations indicate the relative sensitivity of the Bank's performance to the developments of a particular industry or geographic allocation.

In order to avoid excessive concentrations of risk, the Bank's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of credit risk are controlled and managed accordingly. Selective hedging is used within the Bank in respect of the industries and other related factors.

22. Credit risk

Credit risk is the risk that the Bank will incur a loss because its customers or counterparties fail to discharge their contractual obligations.

The Bank manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for geographical and industry concentrations, and by monitoring exposures in relation to such limits.

The Bank has established a credit quality review process to provide early identification of possible changes in the financial position and creditworthiness of counterparties based on regularly reviewing collateral. Counterparty's limits are established by the use of a credit rating system, which assigns each counterparty a risk rating. Risk ratings are subject to regular revision.

23. Market risk

23.1 Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect the fair values of financial instruments. The Bank is exposed to interest rate risk due to mismatches in maturity dates or dates of interest rate repricing for assets, liabilities, and off-statement of financial position instruments over a certain period. The Bank manages this risk by matching the dates of interest rate re-pricing of assets and liabilities through risk management strategies.

Analysis of assets and liabilities based on interest rate re-pricing date

The re-pricing term of the effective interest rate is the remaining period from the date of the consolidated financial statements to the nearest re-pricing date of interest rate or the remaining contractual term, whichever is earlier.

The following assumptions and conditions are used in analysis of the re-pricing period of interest rates of the Bank's assets and liabilities:

- ▶ Cash and gold; due from the State Bank of Vietnam; trading securities, investment securities - equity securities; derivatives financial instruments; long-term investment and other assets (including fixed assets, investment properties and other assets) and other liabilities are classified as non-interest bearing items;
- ▶ The re-pricing term of investment securities – debt securities (excluding special bond issued by VAMC; loans to customers; due from and loans to other credit institutions; grants, entrusted funds and loans exposed to risks; borrowings from State Bank of Vietnam; valuable papers issued; due to and borrowings from other credit institutions and due to customers are determined as follows:
 - Items which bear fixed interest rate during the contractual term: The re-pricing term is determined based on the time to maturity from the consolidated statement of financial position date.
 - Items which bear floating interest rate: The re-pricing term is determined based on the time to the nearest interest rate re-pricing date from the consolidated statement of financial position date.

23.3 *Liquidity risk*

Liquidity risk is the risk which the Bank has difficulties in meeting the obligations of financial liabilities. Liquidity risk occurs when the Bank cannot afford to settle debt obligations at the due dates in the normal or stress conditions. To manage the liquidity risk exposure, the Bank has diversified the mobilization of deposits from various sources in addition to its basic capital resources. In addition, the Bank has established policy for control of liquidity assets flexibly, monitor the future cash flows and daily liquidity. The Bank has also evaluated the estimated cash flows and the availability of current collateral assets in case of obtaining more deposits.

The maturity term of assets and liabilities is the remaining period of assets and liabilities as calculated from the consolidated statement to the settlement date in accordance with contractual terms and conditions.

The following assumptions and conditions are applied in the analysis of maturity of the Bank's assets and liabilities:

- ▶ Balances with the SBV are classified as demand deposits which considered within one (1) month, include compulsory deposits;
- ▶ The maturity term of held-for-trading securities; investment securities - debt securities is calculated based on the maturity date of each kind of securities; investment securities - listed equity securities is considered within one (1) month because of their high liquidity;
- ▶ The maturity term of due to the SBV; grants, entrusted funds and loans exposed to risks; valuable papers issued; due from and loans to other credit institutions, loans to customers is determined based on the maturity date as stipulated in contracts. The actual maturity term may be altered because loan contracts may be extended;
- ▶ The maturity term of long-term investments is considered as more than five (5) years because these investments do not have specific maturity date;
- ▶ The maturity term of due to and borrowings from other credit institutions, derivatives, other financial liabilities and due to customers are determined based on features of these items or the maturity date as stipulated in contracts. Vostro account and demand deposits are transacted as required by customers, and therefore, classified as current accounts. The maturity term of borrowings and term deposits is determined based on the maturity date in contracts. In practice, these amounts may be rolled over, and therefore, they may last beyond the original maturity date;
- ▶ The maturity term of fixed assets is determined based on the remaining useful life of the asset.
